10.15am

Preventative Maintenance and Care of Your Motorhome

Your motorhome is one of your biggest assets and most prized possessions.

Therefore, it is important you look after it properly. In this seminar, you will learn:

- Staying on top of servicing and maintenance and the implications if you don't.
- Maintaining your house including fresh and grey water tanks, and your awning.
- Considerations for storage when you're not out on the road exploring.
- What to be mindful of when you're adding accessories or enhancements.

11.00am

Diesel Heating – Pros, Cons, Dangers, Advantages, Installation Options, and More!

This seminar will help you with choosing the correct sized heater for your motorhome or caravan and dispel many of the rumours and misunderstandings about diesel heating. Choosing the correct installation position is important for good performance and a long service life. There are also many options including additional ducting outlets, heater controllers and the option to heat water.

Battery Management with REDARC

Looking after your auxiliary batteries is essential to ensuring they give you a long service life. But how do we do this? Amperage, voltage, state-of-charge, charge, discharge; what does it all mean? And why does it matter? Find out with Greg Mitchell from REDARC Electronics as he explains how to get the most out of your batteries and save money and time in the long run.

The Essential Need to Know Before Purchasing a Motorhome or Caravan

Avoid making an expensive purchase mistake by buying the wrong motorhome or caravan. TrailLite consults hundreds of customers every year who are feeling overwhelmed with the market and are anxious about buying the wrong product for their lifestyle. So let's get you clear about your needs and ensure you buy once and buy right. Everything you need to know to make that happen will be included in this seminar.

Wireless Nation's NZMCA Data & Mobile

Staying connected on the road and at home. Fast and affordable WiFi designed specifically to meet the needs of NZMCA members. A portable WiFi bubble wherever you go. Everyone's devices can stay online on your journey, at your destination and at your home — phones, watches, tablets, laptops, and eReaders can automatically connect to your onboard WiFi, and stay connected. Simply unplug it from the power outlet at home and plug it into your vehicle!
